

## EXPLANATORY NOTES

1. Identification of the technician to whom this logbook refers should be by photograph in the appropriate place. The technician's signature is also required.
2. Details of the holder's IRATA level should be entered and endorsed with the assessor's signature or alternatively validated by IRATA official stamp.
3. The work experience sheets should be filled in and countersigned by the supervisor; where this log book is being used by a supervisor, a senior person in the employing company or client should countersign the hours worked.

*Important notes on the completion of the work experience sheets section are printed at the back of the logbook.*

4. The only hours that should be recorded in this book are those actually spent carrying out industrial rope access tasks. This includes any training and instructional hours.

**Fraudulent misuse or alteration of this log book may result in the suspension or withdrawal of IRATA registration.**
